https://www.linkedin.com/in/rajesh-murugesan/

## Objective

With **4 years** of experience in front-end/React development, seeking a challenging role to utilize expertise in React, HTML, CSS, JavaScript, Agile development methodologies, and Progressive Web App (PWA) development to create high-quality, responsive, and offline-capable web applications that improve user experience. Strong problem-solving and communication skills, as well as team collaboration abilities, enable the delivery of results and a positive impact on the organization. Proven ability to quickly adapt to new technologies, methodologies, and workflows to create innovative, interactive and high-performance web applications.

## Portfolio

A comprehensive overview of my skills, abilities and experience as a developer showcasing my hobby projects, and experience. Built using React and showcases ability to work with technologies. Check out my portfolio at https://rajesh-m.netlify.app/ to learn more about my work.

## Tech Stack

Have experience using these technologies to build **dynamic, responsive, and maintainable UI, web apps and Progressive Web App (PWA)** that are easy to use and visually appealing. Always eager to learn new technologies and improve my skills in order to provide high-quality solutions/products to my clients.

- **Web Technologies:** ReactJS, JavaScript, TypeScript, SASS, HTML, CSS, Bootstrap, JSON,Angular, Node.js, ExpressJS, MongoDB,
- **Version Control System:** Git, Github, Azure,
- **State Management:** Redux, MobX, ContextAPI

## Skills and Abilities

As a front-end developer, I possess strong skills in **HTML, CSS, JavaScript, React**, with proficiency in problem-solving and communication abilities. In addition to these core skills, have experience with:

- **Responsive web design** : Ability to create websites that look and function well on a variety of devices, including smartphones, tablets, and desktop computers.

- **CSS preprocessors** : Can write more efficient and maintainable **CSS**, such as **Sass or Less**.
- **Reusability** : Ability to build **reusable** components and front-end libraries for future use. **JavaScript's frameworks** : Experienced in building complex and interactive web applications using libraries such as **React, Angular**.
- **Optimization** : Ability to optimize components for maximum **performance** across a vast array of web-capable devices and browsers.
- **Refactor** : Ability to refactor code for improved **maintainability and readability**.

# Professional Experience

### Developer 2                                                                    Bengaluru, Karnataka

**Epsilon**                                                                           12/2021 - Present

Primarily focused on creating full-responsive, dynamic cross-platform web app/PWA using React,

Areas of Focus and Responsibilities:

- Build **reusable** react components and **responsive** web pages/app and PWA.
- Collaborating with a cross-functional team that includes designers, backend developers, and QA engineers.
- Participating in **agile** development processes, including **sprint** planning, stand-ups, and demos.
- Translating designs and wireframes into **high quality** code.

### Software Engineer                                                             Chennai, Tamil Nadu

**BPMLinks Solutions Private Limited**                                     04/2019 - 12/2021

Primarily focused on creating responsive web applications using React / Angular,

Areas of Focus and Responsibilities :

- Built responsive web pages/app and PWA using React, HTML, CSS, and Bootstrap.
- Created reusable components in React / Angular.
- Integrated third party libraries like **Material UI** / Angular Material.
- Handled and created **Redux** for data sharing between components.

### Full Stack Developer Intern                                               Chennai, Tamil Nadu

**360 Ripples Solutions**                                                        12/2018 - 03/2019

Primarily worked on creating full stack web app like To-Do, Calculator app and Admin dashboard

- Designing and developing web apps using Java, Angular, MySQL, and Spring.
- Building scalable and maintainable back-end API servers using Java and Spring and Implementing front-end components using Angular.

# Education

**B.E, Computer Science and Engineering**                     Bodinayakkanur, Tamil Nadu
Government College of Engineering                                              04/2018

# Honors & Awards

- Client Delight Award Q1 2020 associated with **BPMLinks Solutions Private Limited**
- Power Packed Performance Award Q2 & Q3 2020,  Q1 2021 associated with **BPMLinks Solutions Private Limited**
- The Pioneers Award  Q2 2022 associated with **Epsilon**

# Declaration

I hereby declare that the information provided in this resume is true and correct to the best of my knowledge.
